Sizewell C will be working along each corridor and will implement as short a closure extent as possible during each night of works. Only one of the closures will be implemented at one time, but the overlap in dates allows for progress on the works to be made as quickly as possible. The closures will be implemented between the hours of 7pm and 6am.

SZC have worked collaboratively and planned these works to avoid disruption as much as possible, but we are aware that there may be some disruption and inconvenience for you. We are sorry that this may affect your journey times and will be working hard to ensure the work happens as swiftly and efficiently as possible. For the latest updates on these works, including diversion routes, please see the Sizewell C Works Tracker here: www.szcworkstracker.co.uk.
